# ISSUE XII Spring: SPRING EDITION/RECYCLING

As we plan our spring cleaning, organizing closets, attics and garages, remember that much of our "trash" can be recycled, and many organizations welcome merchandise that can be reused to help others. Below are some resources for recycling common household items as well as uncommon items we may not have considered recyclable. Happy cleaning!

#### WHOLE FOODS

There is a Bin for **#5 Plastics** outside by the shopping carts. Yogurt containers, deli containers and anything else that has #5 mark are recycled and turned into toothbrushes, razors, cutting boards, colanders, etc. by a company called Preserve.

Cleaned **Brita filters** also can be recycled here. Just dry the filter by shaking off excess water and setting in a dry place for three days. Then wrap in a recyclable plastic grocery bag.

**Stretch Plastics are** recycled via the Green bin near Customer Service. They accept any store's plastic bags, dry cleaning plastic, etc.

Batteries and Cell Phones are recycled near the bottle return machines in the back.
