

JUUL, Vaping & E-Cigarettes: What You Need to Know to Stop the Epidemic!

JOIN US!

Monday, June 10th

@ 7:30 P.M.

Manhasset Public Library

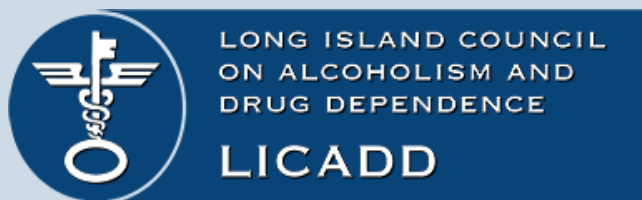

WE WILL DISCUSS:

- What vaping is.
- Why we should be concerned.
- How to identify the devices.
- Signs to look for to determine if your child is vaping.

The Centers for Disease Control and Prevention's 2017 National Youth Tobacco Survey reported more than 2 million middle school, high school and college students vape. Preliminary federal data shows vaping by high school students is up by about 75% this year.

Mandarin Translation will be provided!
