

**Join Manhasset's SEPTA Gifted & Talented
programming for a one day event
by Mad Science of Long Island!**

**Tues Nov 7th 4:30pm-5:30pm
(there is no school that day)**

You think homework is pressure? Just wait until you learn how the weight of the earth's pressure pushes down on you with the force of two elephants! Explore how Bernoulli's principle creates enough lift to make a jumbo jet fly or how air pressure can be used to launch a mini-rocket. Watch in amazement as our vortex generator creates giant smoke rings. Want even more pressure? Take a ride on our amazing Mad Science Hovercraft! Mad Science shows are fun and educational and this program will leave you flying high!

No need to register.
Come to the Community Room downstairs in the
library.
Bring a friend, all ages welcome!
