

Planet Manhasset is seeking to fill 2 positions related to the Shelter Rock garden.

1. Planet Manhasset is seeking a Shelter Rock Garden chair. This position involves checking on the garden periodically, weeding and harvesting as needed. This person should regularly report to the Planet Manhasset chairs about what is growing and the state of the garden. We also need the person who holds this position to take initiative in contacting teachers and/or Mr. O'Brien about using the garden as a tie-in to the existing curriculum. Responsibilities would also include working with teachers to find a time to take their classes out to use the gardens in the fall and spring.

2. Planet Manhasset is also seeking a volunteer to assist with creating a pollinator garden in the back of the school. There is an existing plot. This person will need to work with teachers and administrators to find the best use for this space and make it into a pollinator garden for the school to use.

For more information or to volunteer, please contact **Becky Tountas** at becky.rubin@gmail.com
